Intimates Part of Money Belonging to State Went to Friends

(Special to the Journal.)
MONTGOMERY, Ala., Feb. 20.—The Lacy, former chief clerk of the state treasury, who was arrested last night, will be taken to the state penitentiary Sunday morning to begin a ten-year sentence for embezzling approximately \$12,000 of state funds.
The court of appeals affirmed the sentence imposed by the Montgomery city court and Lacy decided to begin his sentence, although he has a right to ask for another hearing in the appellate court and then to apply for a writ of certiorari to the supreme court.
In a final statement to the public Lacy tonight said he wished it were so he could "offer full restitution to the state for the loss which is charged to me."

He continued: "I am most solemnly and sincerely sorry that I am not now and have never been in a position to make restitution for the shortage for which I have been convicted."
Lacy intimated that others profiting by the defalcation had broken solemn and binding agreements and he hoped they would reconsider their behavior with his consciences if such be possible.

William T. Seidner, attorney, announced today that Lacy and James O. Oakley, former president of the board of convict inspectors will be tried in the city court on other indictments charging embezzlement at the firm which will begin Monday.

The amount of agricultural and live stock paper maturing after 90 months, but within six months was \$231,000, held mainly by the Dallas, San Francisco and Chicago banks. The New York rate of 1 per cent on commercial paper maturing within 30 days is lower than the European central banks.

CHAPEL CAR "ST. PAUL" IN ATLANTA FOR BRIEF STAY

Will Be Dedicated in New Orleans on March 14 by Cardinal Gibbons

The chapel car "St. Paul," the latest and most elegantly equipped railroad chapel coach built, arrived in Atlanta Saturday afternoon and is parked at the Terminal station. It is operated by the Catholic Church Extension Society of the United States. It was built for missionary work exclusively in the south.

Signs at each entrance invite all to enter—non-Catholics as well as Catholics. No services are held.

The car was recently built at Dayton, O., at a cost of \$25,000. It is 100 ft. long and 12 ft. wide. It is usually long and is constructed of steel.

Half of the car is devoted to a chapel, very much like the conventional chapel, only smaller. A small, curtained altar, a large crucifix, and a large stained glass window form a confessional. The other half of the car is devoted to a living apartment for its "crew," a chaplain, an assistant and one attendant. On the trip the car is accompanied by Rev. Alvin W. Doran, of Philadelphia, and George C. Hennessey, superintendent of the chapel cars of the society.

Patron Doran will be heard at the annual heart church Sunday morning at 9:45 and at 11 o'clock. The car will be open for inspection until Tuesday night at 9 o'clock. It will leave for Birmingham Wednesday morning.

BRITONS ARE REQUESTED TO HELP BUY WARSHIP

Subscriptions May Be Sent to Miss Ethel Hall in Atlanta

The Patriotic League of Britons Overseas, an organization of English people living outside the king's dominions which has undertaken to raise money to build a battleship, has authorized Miss Ethel Hall, of 496 Piedmont avenue, this city, to receive subscriptions here.

Explaining the fund and its origin, Miss Hall says:

"Careful inquiry was made as to the form of offering which would be of the greatest practical use, and which at the same time would most forcibly express the loyalty of Britons compelled by business or otherwise to live outside the king's dominions, and it was decided that nothing would so nearly fulfill these two conditions as a warship, preferably one of those now under construction, which will be in the fighting line in a few weeks."

Miss Hall calls upon all loyal Britons to subscribe to the fund, sending them to her address, which is 496 Piedmont avenue, Atlanta.

LEADERS OF BAPTIST MEN'S MEETING to open in Tabernacle for three-day session Tuesday. From left to right are the Rev. J. E. Hampton, Gainesville; Judge John T. Pendleton, Atlanta; and the Rev. J. R. Eiden, Jr., of Toccoa.

Six Sessions Expected to Draw Big Attendance From All Sections of Georgia--Reduced Railroad Rates for the Meeting

On Tuesday evening the general subject will be "Preparation," with J. P. Nichols, of Griffin, in the chair; Wednesday afternoon, "Information," with Judge J. T. Pendleton, of Atlanta, in the chair; Wednesday evening, "Vitalizing Agencies in Other Lands," A. W. Van Hoose, of Rome, in the chair; Thursday morning, "Down to Business," Z. H. CONFEDERATE VETERANS WILL GET MONEY FIRST

Tech and Other State Institutions Must Wait for Extra Appropriations

Extra or increased appropriations made by the last general assembly to the state sanitarium, Georgia School of Technology and others of the state's eleemosynary institutions must wait payment until after the state pays the 1915 pensions to Confederate veterans.

Governor Statton announced this policy to President John T. Braniff of the board of trustees of the state sanitarium at Milledgeville, and Dr. K. K. Matheson, president of the Georgia School of Technology.

Unpaid appropriations made to the institutions in question for the year 1914 will be paid for immediately after the pensions are paid and the law requires that the pensions for the current year be paid by May 1. The extra or increased appropriations for the year 1915 will be taken care of later, and it will probably be after the receipt of corporation taxes in September before some of them are paid.

Necessity for delaying the payment of the extra and increased appropriations to state institutions is explained by Governor Statton as being due to the fact that the state is \$100,000 behind the corresponding period last year in the collection of taxes. Slow collections he attributes to the distress growing out of the European war.

Increased appropriations to the state sanitarium made available in 1912, total \$31,425, and a balance of \$3,000 is still due the Georgia School of Technology on extra maintenance appropriation of \$10,000 for 1914. There are special appropriations to other institutions.

MRS. POTTER PALMER MAY BUY LAND HERE

Chicago Social Leader Figures on Investing in Atlanta Real Estate

No less a person than Mrs. Potter Palmer, wealthy Chicago social leader and clubwoman, is figuring on Atlanta real estate as an investment.

An agent here who does a good deal of appraisal work has made an appraisal on a large tract in Dekalb county between Druid Hills and Decatur and not far from the site of Emory university, which Mrs. Palmer had in view.

Her object, it appears, is a residence subdivision. The agent who is representing the owners of the tract is now in Florida, and details of the transaction are not now available. Mrs. Palmer is at Palm Beach.

CHAMBER OF COMMERCE SEEKING MORE MEMBERS

Co-operation of Every Business Man and Institution Needed to Make Success

President M. L. Wilkinson and Secretary Walter G. Cooper, of the chamber of commerce, as well as all the officers and directors of the body, are making an effort to increase the membership, and feel that they are justified in asking the manufacturers, merchants and other business and professional men of the city, who are not members, to become members and this assist in the important work the chamber is doing.

The chamber has been actively working during the last six months to improve the conditions caused by the European war.

The cotton committee took the lead in the work to reduce the cotton acreage and increase food crops, and secured to that end the pledge of 5,100 banks throughout the south.

The "Build Now" and "Repair Now" committees have induced citizens to begin several hundred thousand dollars worth of work which would otherwise have been delayed for some time. This has put several hundred men to work.

The Southeastern Fair committee has never stopped its labors for a day and has about arranged with the city and county to commence work on the buildings at Lakewood as soon as the final plans can be completed. This will put several hundred men to work.

Among other matters, the chamber took an active part in the work of raising \$25,000 for the Associated Charities. This put the organization on its feet again and by this most timely aid, the means of relieving unprecedented distress was supplied.

The industrial bureau has recently, in spite of the prevailing depression, succeeded in locating an important industry in the city. This is the Elabroated Roofing company. Other industries are thinking of opening up in the spring, and the chamber is leaving no stone unturned to bring about the desirable result.

The above is but a small part of the work which has been going on and which is still going on. The attention to inquiries from all parts of the country, correspondence of all sorts, the meetings of committees, the holding of conferences and the keeping up with the matters of daily routine, is a work which is unappreciated, but most important and necessary.

The chamber needs the co-operation of every business man and institution in the city. Remember that it helps everybody to help Atlanta, and the best way to help Atlanta is to be a member of the chamber of commerce.

SERVICES FOR RAILROAD MEN AT REVIVAL MONDAY

Meetings at the railroad shops and offices in connection with the revival campaign have been of a marked interest. The total attendance was 417. These will be continued next week. Mr. C. Norton, of the evangelists, will speak at the freight offices and the ministers of Atlanta will be drawn on for the shop meetings.

Much interest is developing among railroad men in the special railroad meeting at the tabernacle Monday night. Seats will be reserved for one and it is expected that a thousand will attend. Each group is requested to report the probable number that will attend to the railroad Y. M. C. A. not later than Monday morning.

USE OF STEAM MAY BE REVOLUTIONIZED BY LOCAL MAN'S INVENTION

Nichols. Firebox Superheater, Invention of Man While An Invalid, Will Be Used by Railroads, Say Experts

Four years ago, an Atlanta railroad man, hospitalized from rheumatism, while in West End, realized that a black future faced himself and his family unless he, who was no help, found a way to help. So, lying day after day upon his back, he began to "invent" things. Today he is upon his feet again, but better still as a result of those weary days of scheming, he has conceived a contrivance which millimetre experts from the east declare will revolutionize steam as used today and will be one of the greatest "home railroad" inventions known since the time of Robert Fulton.

The man is J. S. Nichols, of 32 Gordon street, and his invention is the Nichols firebox superheater, in which he has achieved the hitherto impossible dream of inventors for years past—the making of superheated and saturated steam.

"The entire use of steam will be changed in the future," says Nichols, "I declared a northern expert after he had examined the plans of the new superheater. 'It will do all you claim. It will double the life of a locomotive, it will increase speed and power, it will save economy. You may see the day when your superheater, in belching, will drive vessels across the Atlantic at least one day sooner than they can make the trip now.'"

APPROVED BY ALL. The master mechanic of nine different southern railroads came and saw and went away enthusiastic. Without one dissenting voice it received their approval.

So J. S. Nichols patented his invention, he formed a company and applied for a charter; he has arranged to have his superheater manufactured; he is negotiating with many railroads for its establishment. Very soon the "see" which came to him while he lay a cripple may make him wealthy beyond his dreams.

Twenty-three years ago, a boy only eighteen years old, J. S. Nichols came to Atlanta. He was already a railroad man. He had been since, serving for thirty years in different departments of the railroad system.

Then, ten years ago, rheumatism gripped him. To many reports, to many doctors he went in vain. Finally, he took to his bed in West End. It was then he began to think.

Many inventions came from the cripple's bed. With paper boxes and pen and pencil he created a litter around him, out of which sprang unique and practicable appliances. He invented a machine for counting election returns of a whole city in ten minutes; he invented one for distributing heat uniformly; he invented many other things. A number of them he sent to the patent office at Washington only to find that some other brain had been before him. "Good or more he had patented. And then came his great idea.

WILL CUT EXPENSES. "Once a railroad man, always a railroad man," his thoughts turned to ways to locomotive and rail. During his long years with the roads, this fact had been impressed on him indelibly: "Earning capacity must be considered always as the largest factor, more speed,

J. S. NICHOLS.

more efficiency, more earnings, if possible, but always to cut expenses. And it was born to him that the biggest fault in modern railroading is the great waste of fuel, coal going out in cinders and smoke, heat in the fire-box unused, its stored, and out of his brain was born a super-heating system which he feels positive will remedy as far as possible all defects in the present method.

The basis of the invention is a steel arch which forms a combustion chamber and the initial point of the super-heating plant, and the great feature of it is the making of dry and saturated steam. The invention gives two lives to an engine, a higher class of steam supplies lubrication by wet steam to prevent the super-heating plant burning, splitting together of the engine parts, gives the engineer absolute control over the engine, creates combustion, as a spark arrester, shields the flues from the damaging effects of the fire-box and takes up only the space hitherto out under any conditions, prevents the reserved for the brick arch.

WRECKED ENGINE REFUSES TO BUDGE UNDER DERRICK

Mikado, Derailed at Decatur, To Be Taken Apart and Moved in Pieces

The locomotive derailed with seven freight cars at Decatur Saturday morning is one of the Georgia railroad's new Mikado "blowdown" freight engines that weigh 225 tons each.

The road has three of them recently delivered, and they are not only the biggest engines coming into Atlanta, but are almost an eye to any freight engine on any road in America.

A German engine gun with its colorful wheels plunging yards in the road to position in a small town house in one of three great iron boxes coming over the tracks in the Georgia railroad.

The engine derailed yesterday seems to have been derailed by a small wheel that came loose. The track got stuck at the Mikado, and the engine refused to budge.

HOLLAND IS FIGHTING WAR AT ANY MOMENT

Both Sides Are Constantly in Danger of Violating Nation's Neutrality - Public Affairs Allies

ROTTERDAM, Feb. 10.—A battle of goulash pretty nearly made a war between England and Holland. It didn't, but the incident was a warning that fighting point nerves are strained in these days.

The neutral nations are jumpy and skittish.

"It seems to me they are pretty busy at the old hotel," said one English spy to another some weeks ago.

Holland, said to be a large floating population of spies. One hotel in Amsterdam is known—the boys on the streets know it—as the headquarters for German spies. There are hundreds of French spies and English spies floating about. Rumor has it that each is given a small amount of money for daily expenses.

"What are they doing there?" asked the other English spy.

The old hotel had been a water-front place for the German spies. It was an English corporation—for its English name was the "Hotel de la Paix."

So the line turned over the hotel to a Red Cross society. By some means a number of enterprising Germans secured quarters in the basement. They saw their chance in serving the Germans and their country needed meat food for its soldiers.

So they turned the basement into a kitchen factory. People walking along the street could look in through the windows and see the goulash factors at work.

It is not stated how the goulash was shipped to Germany. Maybe some of it was shipped to England.

Because as soon as the shipping was established, the German made representations to their diplomatic representatives, and the diplomatic representatives made representations to the British.

"We are feeding the enemy," said the diplomats to Holland. "We won't have it. Cut it out."

But the British, however, England is not so easily satisfied.

"Holland's feeling just that way about it at just that moment. In the first place, not all of Holland regards Germany as the enemy."

There seems to be no doubt that the commoners of the Dutch are not so war private uniforms and the women who marry them—are strongly pro-ally.

The court circles and the aristocracy are strongly pro-German. It is a question which way the Dutch cut would jump. If they had to jump—which she won't jump unless she sees a bird in sight.

That cryptic remark will be elucidated later.

"You are annoying us," replied Holland to England. We are at war but we are losing money because you are interfering with our commerce. You might as well be polite."

The exact figures of speech employed on both sides are not yet matters of record. It is doubtful if much, if any, of the dispute was committed to paper. The Dutch have a very strong foreign office, which has been declared by the Dutch.

It acts on the well-tested principle of business: "When in doubt don't say a word."

That the situation was loaded there can be seen from the fact that the Dutch in Holland warned English people resident there that it might be well for them to send their families away.

They reminded that the North Sea ferry would cause questions the moment that war was declared between the two countries. But it was a storm in a teacup. Both sides smoothed down and agreed to forget. The goulash makers were not to be disturbed.

The Dutch punished an enterprising merchant who had shipped a cargo of grain to Germany. The Dutch said it was a matter of a sort, with England. But there is no pretense of liking on either side.

The truth seems to be that with centuries of hostile tradition behind them the people of Holland do not like the English. But they fear that they are in Germany's way, that

ATLANTA CHARITY BAZAR WILL BE HELD ON MARCH 2-6

Receipts Will Be Divided Between Charitable Institutions Taking Part

Three Atlanta charities, the Home for the Incurables, the Home for the Friendless and the Atlanta Children's Home society, have formed themselves into a temporary organization known as the Atlanta Charity Bazar association, for the purpose of holding a grand and gala bazar week at the auditorium from March 2 to March 6.

The proceeds from the bazar, the dancing and other features which will form the bazar, will be split equally between the three.

The committee in charge has advertised "five" July days and five merry home for the friendless day: Thursday Home for Incurables day; Friday Atlanta Children's Home society day; Saturday Grand March day.

Vaudville, a society circus, a hippodrome, concerts by the Fifth regiment band and dancing comprise the bazar. The bazar is a grand affair, and the committee, an imported Parisian aerial, novelty feature, "The Act with a Million Dollars," and a grand finale, the pantomime comedy, "Bobby Poutain and his educated pony and dancing."

"Society's Fashion Plate of Boneyard," the Five Flying Herberts; Dolly Day, concert stater.

These performers have arranged to appear at the federal prison Monday morning and the Home for the Friendless Monday afternoon, the bazar not held until Tuesday.

AMERICAN DOCTORS AND NURSES WED BY ALL OF SERBIA

Women of U. S. Who Married
Serbians Are Doing Great
Work for Relief of People
Suffering From War

KRAIGHEVATZ, Serbia, Feb. 10.—(Correspondence of the Associated Press.)—The distressing feature of the situation in Serbia is the difficulty of rehabilitating the hundreds of thousands who were obliged to abandon homes and lands that became battle areas during the Austrian invasion. Officers of the Serbian government see no reason why the people should not return, but the difficulty lies in providing them with grain for replanting and feeding them. New crops are harvested, but the roads, help abroad is being sought by the government for this agricultural rehabilitation.

Societies that have operated in former years to instruct the rural population in methods of intensive farming have been discontinued, therefore, despite all the government is seeking to accomplish. Major is apt to get the impression that nobody in Serbia is doing anything that does not require the support of the army. Women and children have to be sacrificed to the needs of the grown male population who must be kept in fighting trim and in the fighting line at any cost.

Everywhere in Serbia the Associated Press correspondents heard the national plea that the country "is fighting not only for the maintenance of her present state with its population of over 10 million, but for the liberation of the whole state of Austria-Hungary. If she succeeds, some eleven millions will be added to her population and every one recognizes that no nation, not even with Russia's aid, cannot be accomplished without supreme sacrifice. The Serbians are accustomed to poverty and hardship, but they are not to million persons really suffering from lack of food and clothing. They have never been reduced to such destitution before. And the Serbians are contented with so little. The army, chiefly on bread and soup and most of the peasants, even in normal times, do not eat except on feast days. Help from the Slavs in America, Brazil, though it has been of great assistance to meet the situation. Everyone here is pinning his hope for life upon American philanthropic resources. The government issues a loaf of bread a day, but every destitute family is still far from sufficient in many cases.

AMERICANS BELIEVED.—There are some 100,000 wounded soldiers here now and medical supplies are still inadequate. At the first of the war, a party of English nurses, who were brought here at the beginning of the war, with Madame Slavova, the American wife of the Serbian under-secretary of finance, and the American Red Cross, also helped organize the Red Cross work at Nish and it was on her advice that the American Red Cross mission was placed at Belgrade. All this work and the fact that she has gone to America to seek additional aid to relieve the suffering of Serbia, has made her name and that of American doctors and nurses beloved by the whole Serbian people. There are several other American women married to Serbians—one to a member of the royal family, another to a Serbian minister in Paris—and this is cited as a reason for the United States doing for Serbia what she is doing for Belgium.

Although this city, until 1870 the capital of Serbia, is at present the headquarters of the army, the fact that a foreigner can see except life in the streets and cafes. Cabinet meetings are held in strictest secrecy, and the deliberations of the chiefs of the staff are a great mystery. The army and navy are in fact, the only one in the Balkans, and the Serbian army is working night and day to keep the army fully equipped.

Children are commonly marching and counter-marching in the streets, in their idle moments they sit in the cafes drinking Turkish coffee or the mild brew of the country and discuss the future plans of the army or the government in battle.

General Miskitch, commander of the first army, who has been raised to the rank of field marshal, is the hero of the day. He is a fine, soldierly figure. Described as a man of few words, but with wonderful military knowledge. General Miskitch is a veteran of all the wars Serbia has fought for the last fifty years. He was second in command of the staff during the two Balkan wars. He knows every inch of ground over which his troops have to fight and he has been often under fire on his trip from point to point in his automobile or on horseback.

FORD ASSEMBLING PLANT
HAS BEEN COMPLETED
New Building Will Be Open for
Inspection of Public by
Friday

R. F. Abbott, Atlanta manager of the Ford Motor company, announces that the Ford company's new assembling plant on Pontec de Leon avenue has been completed and will be open for inspection by the public Friday.

The new Ford plant, at which cars will be assembled and distributed over the entire south, is said to be the "last word" in plant architecture and construction.

A large force of men has been working night and day to complete the new plant, which is built of concrete and is four stories high. A unique feature of the construction of the plant is the fact that a "spiral" railroad track runs into the second story of the building, so that automobiles can be there loaded on freight cars.

Within ten days Manager Abbott declares a large force of skilled workmen will commence assembling the cars at the Atlanta plant.

OVER 225,000 PEOPLE ATTEND FRISCO SHOW

All Records for Exposition
First Day Attendance
Are Broken

(By Associated Press.)

SAN FRANCISCO, Cal., Feb. 20.—All records for exposition first day attendance were broken today at the opening of the Panama-Pacific International exposition. By 4 o'clock this afternoon the turnstiles had clicked off 225,000 admissions and it was expected that by midnight the total would have reached more than 300,000. The previous record was at the opening day of the St. Louis world's fair, 174,452, in 1904.

The crowd was a spectacle in itself. It filled the grandstand, it packed the great courts and concourses, it poured through the aisles, it overflowed from the sidewalks into the avenue, from the hills in the bay, down the city streets could reach in unending rivers of bobbing heads.

As the president's personal conveyer, Secretary was heard with the military attention. In the more solemn passages of his oration the vibration of his voice stirred the audience in sympathy and there were tears in many eyes as he pointed to the flag, the flag of the nation, where east and west come face to face.

This was the American pioneer, his sufferings and triumphs were the orator's theme. This exposition was his story. It was the story of the people of an advancing Democracy, strong, confident, conquering. Without him there had been no exposition, no San Francisco.

As President Wilson opened the exposition with the touch of a button in the White House, the sun's light shattering rays glinted in a miniature rainbow through the sparkling streets of the city, the flag of the nation, where east and west come face to face.

This Week in Atlanta's Movie Theaters

Brightest Stars of Picturedom Booked at Local Houses for Every Day—Lyric Opens Next Monday With Movies—The Grand Changes Management—Last Episode of "Million Dollar Mystery" Wednesday—Every Movie Theater Has a Feature All Its Own Which Fans Can't Afford to Miss

Exceptionally fine pictures have been booked this week in every Atlanta movie picture house. All the screen stars are on the programs, and for each day the bills are well varied with comedy, romance and action. With the Lyric under the movie banner for the first time in its history Monday week, the Grand announcing a brilliant change of program with its change of management, and other leading theaters making every effort to show the most features the movie world of Atlanta is getting an array of pictures which cannot be beaten anywhere in the country.

Such stars as William H. Crane in the role of "David Harum" at the Montgomery Monday and Tuesday, Mary Pickford every day at the Grand, Alice Joyce and Francis X. Bushman at the Alamo, Keystone comedies and Thelma Houston at the Strand, Pearl White and Ruth Roland at the Vaudeville, and Grace Cunard and Francis Ford and Billie Ritchie and numerous others at the Alpha—where can you beat it?

WILLIAM H. CRANE STARS IN "DAVID HARUM" AT MONTGOMERY.
The big photograph of the week at the Montgomery is William H. Crane, the famous stage star, in a wonderful characterization of David Harum, West's immortal book, "David Harum," at the Montgomery Monday and Tuesday. This is Crane's first appearance in motion pictures, and he could have chosen no better vehicle than the portrayal of the man with the stern exterior and the kindly heart that beats in sympathy with the rest of the world, so typically American, so universally loved by thousands who have read the book or seen Crane in this role upon the stage.

David Harum is in five parts, produced by the Famous Players Film company, on the Paramount program. Other big features have been booked for the week at the Montgomery, a complete list of which is given in the Journal's guide on this page.

By special request, Manager Ralph De Ryser has booked Marguerite Clark in "The Goose Girl" Wednesday at the Montgomery. Hundreds who did not see this picture when it was in Atlanta some time ago, have begged Mr. De Ryser to show it, and he has consented to the belief that few will miss this most beautiful actress in the famous play.

STARS EVERY DAY OF WEEK APPEAR AT ALPHA THEATRE.
The all-star week at the Alpha Theatre. For every day Manager Alpha Powell has booked at least one film star, the favorite of the screening house, beginning Monday with Ella Hall in the seventh episode of "The Million Dollar Mystery." Tuesday the big feature is Billie Ritchie, one of the most laughable comedians now appearing in the movies. Ritchie has a host of followers, and in "Alice in Wonderland" Tuesday is the driest of the droll. On the same day, "Runaway June," Friday, approaches a climactic point which its followers cannot afford to miss. The announcement of four Keystone comedies, on Monday, Tuesday, Thursday and Saturday, will create pleasure to all lovers of these laughable movies.

FOUR KEYSTONE, W. S. HART STARS IN "THE MILLION DOLLAR MYSTERY" AT VAUDETTE.
The film for which Atlanta movie fans have been waiting for months will be shown at the Vaudeville Theatre Wednesday of this week—the last episode of "The Million Dollar Mystery." In it the mystery is solved. The fate of Countess Olga, Stanley Hargreaves and Florence Gray is settled once and for all. The place where the \$100,000 was hidden all the time is at last revealed. The denouement of the great mystery is packed with surprises, making the final chapter quite as sensational as those which preceded it. The name of the winner of the \$100,000 prize, offered for the solution of the mystery will not be made public until later. Marguerite Snow, Florence LaBadie, James Crane and others of the original cast appear in this picture.

FRANCIS BUSHMAN IN LOVE DRAMA AT ALAMO ON FRIDAY.
In "Stars Their Course Change" at the Alamo Friday, Francis X. Bushman, the popular movie actor, takes a deep and subtle psychological analysis of the fundamental laws that govern the course of love. It is a drama that is full of action and sensation.

The plot hinges around an author, Robert Cameron, who has won fame from his book, "The Edge of the Press," and, leaving his cabin in the woods for civilization, meets Olive Stanton, who accuses him for the evidence expressed in his work and begs she will bring to her feet this

man who has won all women but who has never himself loved. The scenes that follow are gripping in their intensity and climax.

ALPHA SHOWS LAST EPISODE OF "MILLION DOLLAR MYSTERY."
The Alpha theatre in West End will open at 10:30 o'clock Wednesday morn-

SIX STARS ON LOCAL SCREENS THIS WEEK ARE, at top, left to right: Lottie Briscoe, Arthur John's partner in Lubin films at the Vaudeville every Tuesday; Charles Richmond in "The Idler" at the Grand Monday and Tuesday; Francis X. Bushman, at Alamo Tuesday in "The Accounting" and Friday in "The Stars Their Course Change;" bottom row, left to right: Harry Benham and Marguerite Snow in "The Twenty Million Dollar Mystery," Monday at the Strand; William H. Crane in "David Harum" Monday and Tuesday at the Montgomery; Billie Ritchie, famous comedian at the Alpha Tuesday.

ing to accommodate the all-day crowds which are expected to see Episode 23 of "The Million Dollar Mystery," the concluding installment in which the great film mystery is solved.

Two other serials now in their most exciting moments will be shown during the week, "The \$200,000 Mine Mystery" on Monday and the "The Exploits of Elaine" on Thursday. Other good films have been booked for every day of the week, and are given in today's Journal guide.

GRAND IN NEW HANDS OFFERS FINE PROGRAM.
There will be an unusually interesting program of motion pictures at the Grand the week that starts on this Monday. Features that are Broadway attractions make up the program, and though in other cities the price of admission charge is greater, admission to the Grand will continue at 5 cents. "The Wells Interest" assumes control of the theater starting on Monday. The Wells has been in other hands for some weeks by lease, and passes back to the original lessee who will prime every effort to make the Grand more popular and more inviting than ever before. There is already a lively interest in the contest for the juvenile automobile that will be given to the most popular boy and girl attending the Grand from this time until March 10.

The program for the week is very inviting. On Monday and Tuesday, William Fox at the head of the Box Office Attraction company will present Charles Richmond and Catherine Counts in "C. Hadden Chamber's play," "The Idler." This picture is in five parts with nearly 400 scenes of interest. On Wednesday and Thursday the Hyatt Film Corporation furnishes "The Chocolate Soldier," the famous Whitney romance play that was so successful so long on Broadway. Friday and Saturday, the Box Office Attraction company furnishes "Will of the Wisp" a wonderful American photo play made in California by the Balboa company.

Under the new management the Grand will inaugurate a feature that will be dear to the hearts of every fan in Atlanta. This is nothing less than a Mary Ann for every week in the future, also will appear in three pictures. The Pickford pictures, together with a comedy film, will be added attractions to the regular program of feature films announced above.

LYRIC OPENS MONDAY WEEK WITH "MOVIES."
Commencing Monday, March 1, the Lyric becomes the home of the great

**SALTS IF KIDNEYS  
OR BLADDER BOTHER**  
Harmless to flush Kidneys and  
neutralize irritating  
acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread the water passes sometimes with a scalding sensation and is very profuse.

again, the is difficult in voiding it.

Bladder weakness, most folk call it bladder trouble, is the most annoying ailment. While it is extremely annoying, sometimes very painful, this is really the most simple ailment to overcome. Get about four or five **Jad Salts** from your pharmacist and take a tablespoonful in a glass of water before each meal, and after each meal, for three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then set normal again.

**Jad Salts** is inexpensive, harmless, and the active ingredients are lemon juice, cod liver oil, grapefruit juice, and water. It is sold and is used by thousands of folks who are subject to urinary disorders caused by acid urine. It is a most splendid for kidneys and causes no

effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—(Adv.)

No, he wasn't really a bad boy. You can tell that by looking into his kind, genial face. Boy-like, he wanted to try his new hatchet, and he didn't think the cherry tree was of any particular value. Of course, he had tasted cherries, but they were nothing like the flavory, juicy, chocolate-coated kind that you find at Nunnally's.

We take the luscious ripe cherries out of the maraschino cordial in which they are packed and fork-dip them in pure bonbon cream. The natural fruit juice dissolves the cream, leaving the cherries suspended in a delicious cordial enveloped in crisp shells of extra fine chocolate.

A box of Nunnally's Chocolate Cordial Cherries makes a most acceptable gift at any season, but is especially appropriate just now. Sold in regular containers at 50c and \$1.00; larger boxes packed to order.

## SIGNS OF THE TIMES

THE choice of a state flower for adoption is under the consideration of the Georgia Federation of Women's clubs and will be decided upon at the meeting of the state executive board in April. At the meeting of the state federation in Albany during the past October the matter met with much consideration and a number of flowers were suggested as the most appropriate emblem for Georgia. The civic league of Barnevillie has named a committee to urge the Federation to adopt the Cherokee rose and given the following reasons for its selection: The state flower should be of sturdy stock and luxuriant growth; it should thrive alike on mountain side or within the vale, and it should by its beauty and fragrance adorn either the palace or the cottage. It should also be a plant that is indigenous to Georgia soil and not one that has been transplanted from some foreign land. All of these requirements are met, the committee asserts, in the Cherokee rose. It may be seen all over Georgia, as it extends its graceful lengths over trees and fences, covering many unsightly spots with its dark foliage and beautiful blossoms, even in its wild state, and under the touch of the gardener it twines around the columns of innumerable verandas and lends its spicy fragrance to every passing breeze.

THE midwinter meeting of the City Federation of Women's clubs is always attended by many interesting features. The assembly will be held Thursday morning at the Woman's club on Baker street and so timely and important does Mrs. Samuel Lumpkin, the president of the city federation, consider this meeting, that she extends through the press an invitation to not only the presidents and members of the federated clubs, but to every woman in the city to attend. Mrs. Ralph C. Norton will lead a talk on a woman's viewpoint of the world problems of Europe. In view of the fact that Mrs. Norton has recently returned from the continent where she was an eyewitness of many of the occurrences which she so graciously relates, more than the usual amount of interest will be manifested in her address.

—Flare coats, too, neither freakish nor extreme, but just right.

—Circular skirts, often pleated or shirred; many with pockets.

—High double collars, military motifs, silk and satin collars.

—Dangling buttons, rich touches of embroidery—styles that have outpaced the fashion magazines. In correctness of spring styles, the showing is the most authoritative thus far this spring.

Prices range from \$15 to \$75, with especially strong lines at

**\$25, \$29.50, \$35**

### Charming Silk Gowns

—Beguiling styles and wonderfully attractive.

—Ruffles and frills—sleeves flaring daringly at the wrist with transparent cuffs—sleeves wholly of chiffon or net.

—Soft, clinging satins and crepes. Lustrous taffetas and shimmering tulle, and a new silk called gros de londre.

—Fascinating styles, every one! And since Fashion cannot quite decide where to drape and where to fit, there are many variations in the waist line. But the high waist line is here.

—There are ruffled skirts and flare skirts and skirts that suggest the days of your grandmother. Bewitchingly picturesque is the clever use of chiffons and nets.

—Pretty sand and putty shades, Belgian and French blues, navies, bronze, etc.

### For Street Wear there are Serge and Silk Dresses

more severe in style but not a whit behind in beauty of line and vogue. Military motifs, Russian motifs, Bolero effects, shirred yokes and hips, skirts with pockets—a woman won't have to look long to find a becoming dress for street wear here.

Street Dresses \$6.75 to \$23.50.

Afternoon Silk Gowns \$19.75 to \$75.

### A Wool Serge Skirt at \$3.98

is just one of many good values that have arrived. The skirt at \$3.98 is

splendid for golf or tramping.

—Made of all-wool serge, circular style, wide skirt with deep pocket at side. Black, navy blue or white.

—Dozens and dozens of other styles, because skirts will be much in vogue this spring. Wide flare models, many of them fitted with pockets. \$5 to \$3.50.

## The Week in Retrospect

WITH the cessation of active social life during last many events have offered themselves as a pleasant and profitable diversion for the next few weeks. Announcement was made early in the week of the coming of Mrs. Jessie Eldridge Southwick, of Emerson College of Southwick, at Boston, who will give a delightful reading Sunday afternoon, February 23, at the home of Mrs. John H. Grant. Mrs. Southwick is appearing under the auspices of the Browning class and the proceeds of the occasion will be used by the Martha Berry circle for philanthropic work in which the circle is interested.

On Thursday was inaugurated the series of lectures on the opera plan and of the music committee of the Woman's club. Miss Nana Tucker gave an interesting review of "The Huguenots." It was announced that all during the coming weeks these lectures will be made most interesting for the club members and their friends who will delight in the opportunity of learning in such an instructive manner the interesting details of the opera to be presented in April.

Mr. W. W. Menninger's reading of "Peer Gynt" before the members of the Drama league Tuesday afternoon at the Georgian Terrace was a rare artistic treat greatly augmented by the beautiful piano accompaniment of Mrs. William G. Day, who rendered with exquisite touch the suite arranged by Edvard Grieg. "Peer Gynt's" return was touchingly interpreted by Mrs. Menninger with the low "Cradle Song" accompaniment, was a truly artistic climax. The very interesting program outlined for the late winter and early spring by the Drama league promises opportunity for continued enjoyment and diversion for its members and friends for many weeks to come.

ONE of the prettiest parties of the week was the 5 o'clock tea at which Mrs. H. M. Atkinson entertained Monday afternoon in her apartment in the Ponce de Leon. The attractive rooms were sprigged like in their beautiful decoration with quantities of var-colored blossoms resting in bowls and vases. Bright yellow was the predominating color in the dining room, a tall silver vase filled with snapdragons, occupying the center of the tea table and surrounded with silver candlesticks shaded with pale green silk. The yellow hints were served in dower caps and all minor details of the beautifully appointed table were in yellow and white. Mrs. Albert Howell, Jr., poured tea and the punch bowl was gracefully presided over by Miss Margaret Grant. Miss Katherine Ellis, Mrs. Atkinson were a beautiful group of sand-colored net, embroidered in gold-colored silk made up with a foundation of black charmeuse with sleeves and bodice in black tulle. Miss May Atkinson who assisted her mother in receiving, was dressed in pale pink chiffon with a corsage of filmy lace and chiffon.

TWO pretty weddings in which social interest centered marked the early part of the week. On Tuesday afternoon, Miss Marie Alma Scipio and Mr. Stanley Douglas, of Chicago, were married at the home of the bride's father, Mr. George W. Scipio, on Peachtree street, Rev. W. R. Hendrix, of St. Marks Methodist officiating. The color motif introduced in the artistic decoration of the home was pink and white. Palms and ferns, and cluster of pink roses combined to make the reception hall and parlor attractive and the drawing room in which the ceremony took place, was adorned with statelily Easter lilies and handsome foliage plants. Tall cathedral candles lined each side of the improvised altar and vases of Easter lilies were placed on the mantel and cabinets. The dining room was a bower of pink roses, which were arranged in vases on the mantel and buffet and formed the centerpiece of the beautifully appointed table. The only attendants were Mrs. George K. Vaughan, matron of honor; Mr. Hampton Leedom, of Milwaukee, best man; little Miss Bessie Mitchell and Roseanne Siler, bridesmaids; and Miss Tupper Hill, ring bearer. The ceremony was witnessed by relatives and intimate friends gathered in an informal reception. Mr. and Mrs. Douglas will make their home at the Hotel Sherman in following a northern wedding trip.

The wedding of Miss Edith Brown and Mr. Andrew N. Brown, Jr., was an event of Tuesday evening, taking place at 8:30 o'clock, at the residence of the bride's mother, Mrs. George M. Brown, on Fifth street. Bishop C. K. Nelson performed the impressive ceremony which was witnessed only by close relatives and intimate friends, and later a beautiful reception was held. The entire home was effectively decorated with palms and ferns, and ropes of southern smilax which wreathed the hall and entwined the stair case. Handmade foliage plants formed the improvised altar before which the bride and groom stood. The drawing room were banked high with palms and ferns. Mrs. Brown, of Nunnally, of Monroe, was the matron of honor; and Miss Lydia Nash was maid of honor.

The bride was preceded with her brother-in-law, Dr. Harry D. Nunnally, of Monroe, and the bridegroom was attended by Mr. Welborn Black, as best man.

The bride made a beautiful picture in her wedding robe. Intricate charmeuse made up with a court train and embroidered in seed pearls. The tulle veil was caught with a half circle of orange blossoms and her flowers were a graceful shower bouquet of valley lilies. Mrs. Brown was accompanied to the altar by her brother-in-law, Dr. Harry D. Nunnally, of Monroe, and the bridegroom was attended by Mr. Welborn Black, as best man.

Mrs. William H. Schröder, who was formerly Miss Susanne Spalding, is one of the most attractive young matrons in the Atlanta society. Her children, William H., Jr., and little Miss Betty Schröder, are the bright young grandchildren of Mr. and Mrs. Jack J. Spalding and spend much time at "Deerland."

## Program for Monday at Woman's Club

A very full program has been arranged for the meeting of the Atlanta Woman's club on Monday afternoon and all are urged to meet promptly at 2 o'clock.

The session will open with the usual order of business, Mrs. J. P. McGovern, presiding. Reports will be heard from Mrs. Irving Thomas, chairman in official conditions; and Mrs. H. E. Stockbridge, nurse chairman.

Miss John M. Slaton will tell of her plans for the opera committee.

apartments at Juniper and Tenth streets.

The Auditor, Mrs. McIntyre, will give her report. The nominating committee to serve in the selection of officers for another year will be appointed.

A tribute to the late Madison Carver, post laureate of Kentucky, will be given by Mrs. Haynes McVaden, his personal friend.

Guests of honor to be introduced are Mrs. Wilbur Chapman and Mrs. Alexander.

At 4 o'clock, Miss Carolyn Cobb will read the beautiful drama, "War Bride," which is an eloquent plea for peace.

### What Home Photography Is

Home Photography is that branch which is a DISTINCT CLASS in photography, and has its charms in individual lighting and in the artistic effect produced.

In home photography you get the REAL SELF, which hours of studio work will not bring forth. Naturalness and ease are essential to obtain a characteristic portrait, so why not go into the subject's own home, and there, in the midst of the atmosphere created by the subject, make the picture? Our wonderful artificial portable skylight enables us to make sittings at night as well as day WITHOUT THE NUISANCE OF NOISE OR SMOKE.

It will cost you nothing to give us a trial, and our representative will call on your request to explain why Home Photography is best. We make society photographs for the society columns of the daily papers, and give special attention to weddings and social affairs. In other words, we make

## Club Five Gives Columbus Team Bad Trimming

Local Team Away to Flying  
Start Was Never Headed  
Final Score 66 to 27--Fine  
Team Work Featured the  
Victory

**BY INNIS BROWN.**  
Playing the best game of basket ball displayed on a local floor this year, the Atlanta Athletic club quint reversed the count on the Columbus Y. M. C. A. for their former game, and chalked up a comfortable victory last night the final count standing 56 to 22.

The game was a notable victory in more ways than one. In the first place, it gives the local five an even break with Columbus on the two games played this season. In the second place the result showed the most decisive victory ever scored over the great five from the Muscogee stronghold. Columbus has been beaten by

fore, beaten on their home court and on foreign courts. But never before have they been buried beneath so decisive a score as that which summed up the casualties on the local court last night.

There was no one feature of play at which the home boys did not have the edge. They were superior at passing, shooting, and rebounding. They

ing. Their forwards shot with more accuracy, even allowing for the advantage which playing on the home court gave. And also their guards hung onto the visiting forward like leeches. It was very rare indeed that the Columbus forwards found themselves free to shoot a basket, without restraint from a pair of eager hands wielded by

The home boys got away to a lead from the jump. Within less than a minute after play had begun, Tillotson Forbes hooked a nice field goal, and from that time on, the home defenders were never headed. The count at the end of the first period showed the local leading by a score of 22 to 13. The second half offered opportunities which were availed for the adding of 54 points.

From the standpoint of points scored Tillou Forbes was the star of the evening. This agile young man piled up a record of fourteen baskets from the field making a total of 28 points, enough to beat the sum total of the visitor single handed. Walter Dubard took second place in the count with seven field goals for fourteen points. Tippe Peders-

the sensational forward of the visitors too, third rank in the field with seven field goals and one foul shot. Johnny Graves ran Peddy an even race on field goals, but did not get a chance to shoot at a foul.

And speaking of Graves, it should be said that his performance was without doubt the most notable of any of the athletes engaged in the contest in some ways. This youngster was giving away

boundage to every other man on both teams. He was pitted against a seasoned guard, who overstopped him in weight and experience, but never throughout the whole contest did he show any let up. He was pretty badly used up a times, and found it necessary to call time, but he always came back, with more grit and determination than ever. His work in that game was a great tribute to grit and pluck in the face of heavy odds.

Team work was the factor, however, which pulled the local five through such a decisive victory. There were doubtless a few occasions, when bad judgment was used by the locals, in handling the ball, but as a whole, they showed the best judgment seen here in a long time in making the most of their opportunities. As one omdimer, remarked after the game, "The team put up the finest all-round exhibition of basketball I have ever seen."

The showing was all that the most sanguine supporter could have asked and there was glory enough for all. And in figuring credit, where credit is due, a great big bunch of the laurel to be strung over the home team's brow should be shunted in the general direction of Coach Joe Bean. The coach has worked patiently and faithfully with

And about the team that lost. The visitors were beaten back in defeat to the most decisive degree they have ever known. But they did not lose without a struggle. They were in the game from the first toss-up until the last, and they lost because they were meeting a better team. As Manager Bridges states after the game, the better team was

The better team under the conditions won is quite sure. The fact that it was by a larger margin. The fact that it was when playing on the latter's court may be taken for whatever it is worth. It is a part of the fortunes of the game that court conditions play a prominent part in the game, and the difference is worth whatever each and every man who saw the game is entitled to give it.

Following is the line-up and scores:

ARKADELPHIA, Ark., Feb. 20.—A call has been issued at Ouachita baseball and a number have responded to Coach Jennings' call. Several surprises have been sprung by unexpected class among the new men, one budding twirler in particular. There is good

## Overland Shows Greatest Week

Week Ending Feb. 13 Was Largest in Company's History—Output Short of Demand

As another indication of the increasing prosperity of American industries comes an announcement from The Willys-Overland company to the effect that the week ending February 13, was the largest single week the company has ever experienced. Coming from a concern that ranks as the second largest manufacturer of motor cars in the world, the statement of facts is indicative not only of better business conditions, but of the steadily growing market for motor cars that sell for a medium price.

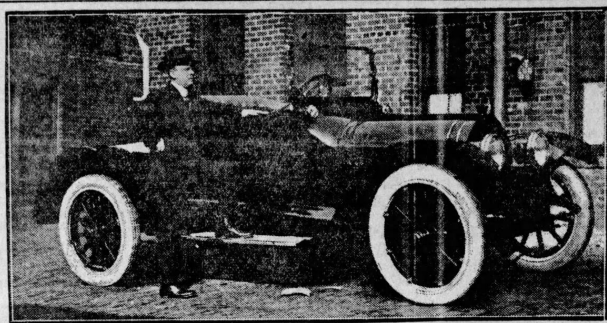

The enormous Toledo factory is operating twenty-four hours a day with a full force of 4,400 men. Although the present daily production of Overland cars exceeds that in effect on the corresponding date of last year, the number of cars being built is not sufficient to meet the demand. The unfilled orders in the hands of the Overland sales department on February 6 were larger by 24 per cent than those on hand on the same date of last year.

Of particular interest to the students of business conditions are some facts relating to the Overland business in the east, where financial conditions have been reported to be especially bad. In New York City 145 per cent more Overland cars have been required to meet the demand since the start of the fiscal year on July 1. In Washington the increase is 122 per cent, in Boston 119 per cent and in Philadelphia 70 per cent.

A little farther to the west Cleveland shows a healthy increase of 120 per cent, Pittsburgh follows with 80 per cent and Toledo 60 per cent. In the middle west Chicago, which ranks as the third largest of the 4,000 Overland dealers, shows a growth in sales of 44 per cent. Kansas City, the second largest distributing point, is using half again as many cars as it did during the same period of last year. Milwaukee is running one-third ahead of its record of a year ago.

The Overland figures show a surprising volume of business in the motor world and bear out the statement of business optimists who declare that the recovery from the conditions brought about by the declaration of war in Europe is being followed, stronger every day. In order to provide space for the manufacture of the Overland needed to meet the demand, a large addition to the plant is being erected. When completed, the new structure which is 1,000 feet long will be one of the largest factory buildings in the world.

## CADILLAC 'EIGHT' GREAT BIG HIT

The new Cadillac Eight, "Standard of the World," is now a familiar sight on the streets of Atlanta, and Lindsay Hopkins, president of the Atlanta Cadillac company, is congratulating himself and his sales force over the lead which the Cadillac Eight has already taken in this city.

Always a car of recognized merit, the Cadillac Eight is making for itself a record that really entitles it to its descriptive title of "Standard of the World." It set the pace in the making of the eight, just as it has set the standard in many other features since it first began to be manufactured.

"You can tell a car by the company it keeps," said Mr. Hopkins yesterday, when talking about the Cadillac Eight and its sales. Recently the Atlanta Cadillac company has sold cars to the following gentlemen of this city: Dr. H. C. Carr, Georgian Terrace; W. H. Kiser; E. H. Imman; R. F. Maddox; J. K. Otley; A. Montgomery; Don A. Jardee, and others.

"All argument ends with your first ride in the Cadillac Eight," says the Cadillac catalogue, and there are many of the new Cadillac owners in Atlanta and this buying vicinity who say that this is literally true. Everybody in automobile circles seems to be interested in the new eight-cylinder Cadillac.

Its V-type, eight-cylinder engine is moving an absorbing topic for engineers and experts as well as for the layman.

In talking of the car, Mr. Hopkins said: "You have only to consult your own feelings and sensations, when you take the first ride in the Cadillac Eight. You then recognize the difference between our car and others just as clearly as you would recognize the difference, for instance, between riding over the ground and riding in the air."

It keeps," said Mr. Hopkins yesterday, when talking about the Cadillac Eight and its sales. Recently the Atlanta Cadillac company has sold cars to the following gentlemen of this city: Dr. H. C. Carr, Georgian Terrace; W. H. Kiser; E. H. Imman; R. F. Maddox; J. K. Otley; A. Montgomery; Don A. Jardee, and others.

## Ring Lardner Buys Chandler

Latest among the humorists who have ceased writing jokes on the automobile in favor of driving their own, is Ring W. Lardner, well known Chicago newspaperman. Mr. Lardner has achieved more than local fame in the past year through his "Letters of a Bush League" in the Saturday Evening Post, and "You Know Me, Al," has become a pet phrase with thousands of Lardner's followers.

During the recent Chicago automobile show, Mr. Lardner, determined to buy a car, had narrowed his choice down to two makes. One of them was the Chandler Six, made in Cleveland, just at the critical moment, his paper,

## Pipp and Hugh Sign With Yanks

DETROIT, Mich., Feb. 20.—Walter Pipp, first baseman, and Hugh High, outfielder, will play with the New York Americans this season. President Navin of the Detroit club announced today that Pipp had come to terms with Manager Donovan, of New York, and that High probably would sign to-day.

The Tribune, carried a page announcement of a \$300 reduction in price on the Chandler. That decided Lardner. He sought out Tom Hay, Chicago dealer for the Chandler, and presented him with a check for \$1,295.

Now all the Lardner family will be strictly on wheels this year, and Ring W. has sworn off on all jests however remotely concerned with the operation of a motor car.

## Dodge Company Owns Hospital

Detroit Motor Manufacturing Company Operates Plant for Benefit of Its Employees

Much more on factory conditions will find little material to work on when visiting some of the big Detroit motor car plants. The fine twenty-acre factory of Dodge Brothers in the northern suburbs of the city is a striking case in point.

In addition to serve self restaurants, rest rooms and other features provided for the comfort of the employees of the company, the visitor of Dodge Brothers factory will find a completely equipped hospital in one of the big 800-foot buildings which make up the plant. In charge of an experienced physician is a suite of first-aid rooms which would do credit to many a small city. Finished in shining white enamel throughout, the Dodge hospital consists of an operating room, physicians' room, nurses' room, and separate wards for men and women. Only in rare cases does the physician in charge deem it necessary to turn over any of his patients to city hospitals for further treatment, as he has the equipment and material necessary for all save exceptional cases.

Through the institution of an intelligent safety-first campaign, and the safeguarding of all dangerous machinery, Dodge Brothers have cut down accidents to the minimum in their factory. Safety-first stems with the factory.

milar red circles in the center are posted in all sections of the plant, together with occasional pictures of an employee who failed to take ordinary care and lost a finger or thumb thereby.

By placing a premium on carelessness, the factory managers have greatly cut down the minor injuries, as compared with a few years back among workers in a big industrial concern.

# CHANDLER SIX

## \$1295

## Check Up Any Other at Less Than \$2000 With the Chandler, and See the Difference

The Chandler now sells at a lower price than any other six of standard touring car size. Other cars that may be considered in the same general class sell at prices ranging from two hundred to five hundred dollars higher. To convince yourself of Chandler leadership check up any other car in the field with the Chandler. No other car selling at less than \$2000 possesses all the high grade features of design, construction and equipment found on the Chandler.

### Motor

What of the motor of the "other car"? Is it a common type of stock motor, built to sell to any manufacturer for any car, or is it a specially designed motor of the car-builders' own make? The Chandler offers you the exclusive Chandler-design and Chandler-make motor, a powerful, quiet, economical, beautifully finished motor that you can be proud of.

### Ignition

What of ignition on the "other car"? Has it a magnet? (The highest priced cars all have magnetos.) Has it the magnet that everybody recognizes as best? Has it the Bosch? The Chandler has the Bosch. And Bosch spark plugs too.

### Starting and Lighting

Has the "other car" a simple, efficient separate unit electric starting and lighting system? Has it the standard Gray & Davis System? The Chandler has Gray & Davis.

### Carburetion

Good carburetion is the basic essential in the operation of an automobile. It is important to provide the best. What carburetor is on the "other car"? Is it an unknown or a doubtful? Chandler has the famous Rayfield.

### Radiation

There's a lot of difference in radiators. Car builders who put quality above price almost universally select the Mayo Genuine Mercedes Type. That's the Chandler radiator. What do you find on "the other car"?

### Motor Base

The Chandler cast aluminum motor base, extending from frame to frame, gives rigidity to the engine mounting, provides pedestals for magneto, pump and generator and does away with the necessity for a dirty, rattly sheet metal drip pan. Check up "the other car" on this point.

### Motor Drive

What do you find on "the other car," gears that are bound to be noisy or silent chains enclosed and running in a bath of oil? Chandler has the silent chains.

### Upholstery

Your wife will be interested in checking the upholstery. What about the "other car"? Has it thin, flimsy split leather, machine buffed, or has it genuine leather of fine substance and hand buffed, like the Chandler leather? And what is underneath this leather, moss or real hair? The Chandler cushions are hair.

### Rear Axle

You have heard a lot of noisy rear axles, haven't you? "Talking axles," someone has called them. There couldn't be anything more annoying. It's a point you want to consider. Investigate. Make sure the Chandler has the new worm-bevel axle, smooth running and silent. What about the other car?

### Workmanship

It is easy to check up the workmanship. Chandler workmanship throughout reflects the greatest care. The finish of the body, the interior of the body and the chassis down underneath are examples of splendid workmanship. Check up any other car with the Chandler on workmanship.

### Miscellaneous

Chandler equipment includes Firestone demountable rims, Golde patent one-man top with Jiffy curtains, Bair patent top holders, motor-driven horn, speedometer, instantly adjustable tire carrier in rear of tonneau, and all the usual incidental equipment.

### Facts to Remember

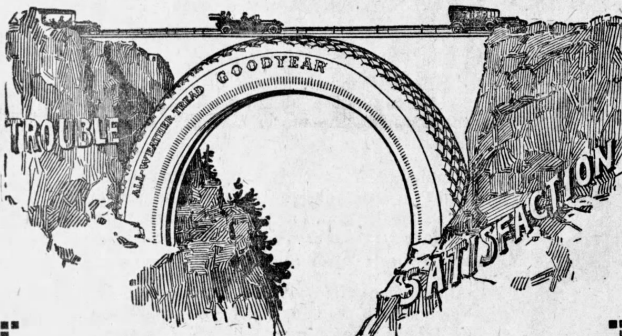

The Chandler weighs 2985 lbs. completely equipped. Averages 16 miles or more per gallon of gasoline, 7000 miles per gallon of oil and 7000 miles per set of tires. Speed 3 to 55 miles per hour on high gear. Climbs every famous "demonstrating hill" in America on high gear.

## The Fortified Tire

Spans the Way from Trouble. Trust It Once

### Let It Tell Its Story

Let the Goodyear tire tell you what it means to travel on Fortified Tires.

Fortified is more than a name. It means a tire with five protections offered by no one else. They have cost us years of effort and millions of dollars.

They have won for this tire the top place in Tiredom—the highest prestige and the largest sales.

In the best way known they combat  
Rim-Cuts Loose Treads Punctures  
Blowouts Insecurity Skidding

Let them prove this to you.

### Not Trouble-Proof

We don't claim the impossible—a trouble-proof tire. But Goodyears average best.

They could never hold the lead—and hold it for years—unless that were true, as you know.

These are super-quality tires. Not in materials alone, but in features. We protect you in five exclusive ways. And one

of them alone adds to our cost \$450,000 per year.

Tests which can't be disputed prove that these features save tire users millions yearly.

### Yet Prices Come Down

Despite these improvements Goodyear prices have constantly come down. We have made three big reductions in two years. Our last—made February 1st—makes the two-year total 45 per cent.

Our mammoth production—the largest in the world—lets us give you in Goodyears the most for your money. And we always shall.

### One for Every Car

Last year we sold 1,479,883—a about one for every car in use. Think what a tire this must be to dominate like that.

Fortified Tires mean less tax and less trouble. They mean more safety, more enjoyment. Those things are waiting you at any Goodyear Service Station.

Any dealer can supply you Goodyear tires. If the wanted size is not in stock, he will telephone our local branch.

## Buick Manager Back From Trip

George D. McCutcheon of Local Branch Returns From Florida—Talks of Business Outlook

Mr. George D. McCutcheon, manager of the southern branch of the Buick Motor company, with office and sales rooms at 241 Peachtree street, has just returned from a combined business and pleasure trip in Florida, and when seen by a representative of The Journal Friday, he talked interestingly of his trip, and of the new Buick cars for the 1915 season.

In talking of the Buick policies, Mr. McCutcheon said: "The Buick company guarantees its Valve-in-the-Head motor will develop and deliver more power than any other motor of the same size—American or foreign make—that's the Buick idea of power. The Buick company guarantees that every man in its great organization contributes his best effort to make and market a motor car that will at all times and under all circumstances give the owner uninterrupted use of his investment—that's the Buick idea of service. The Buick Motor company guarantees that every part of its cars so carefully that every Buick car built must merit distinction as a motor car of absolute dependability—that's the Buick idea of honesty. The Buick Motor company guarantees to be exact in all statements and to serve every Buick owner courteously and promptly, thus insuring to him the greatest pleasure he expects—that's the Buick idea of satisfaction."

Mr. McCutcheon talked interestingly of the "return to prosperity," signs of which are seen on every hand, and stated that he believed there is going to be a greater demand for motor cars than ever before. Mr. McCutcheon said: "Several causes are operating to bring about a shortage of Buick cars for the final months of the 1915 season, and I am advising those who are thinking of buying a Buick to buy now. More than half of the factory output was sold prior to February 12, 30,071 Buicks having been placed in users hands up to that date, as against 18,141 cars for the same period a year ago. Of all the remainder of the output a considerable portion has been booked for spring delivery, so that, all told, there will be a very limited supply of Buicks with which to meet a demand that bears every promise of being unprecedented."

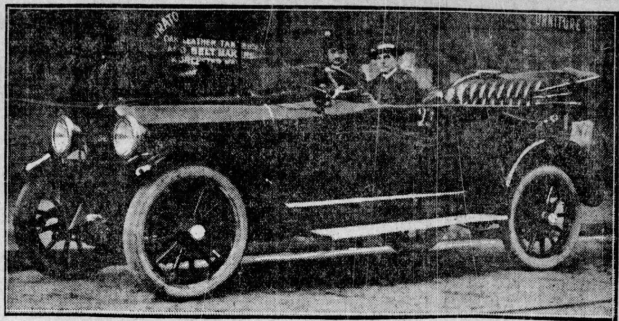

The Atlanta branch of the Buick Motor company, of which Mr. McCutcheon is manager, has on display all the new models, and prospective automobile buyers of Atlanta and outside this state are showing a greater interest than ever before in the Buick.

## ORDER OF MACHINICS PAYS TRIBUTE TO D. S. A. DAVIS

West End Council No. 12, Junior Order United American Mechanics, has adopted resolutions paying tribute to the memory of D. S. Davis, a charter member of the council and a former citizen of Atlanta, who died suddenly at Port Valley, Ga., which lately had been his home.

The resolutions credit the high esteem in which Mr. Davis was held for his simple character, zealous care of his order, good citizenship and tender affection for his family, and expressive to them the council's aid and sympathy.

## Goodrich Plan Meeting Favor

When the Goodrich company began publishing its series of advertisements on "Downing the Padded Price List," etc., it seems to have struck a popular chord among automobile and truck owners of the country over, and the dealers of Atlanta are no less enthusiastic over the announced policy of this big rubber company than are they in other cities.

Mr. W. W. Reason, manager of the Goodrich company's branch in Atlanta, is very enthusiastic over the new policy as adopted by the Goodrich people, and in conversation with a representative of The Journal yesterday afternoon, Mr. Reason said: "It means a saving of at least 15 per cent on the upkeep of an automobile, and that in itself will mean that more cars will be bought because of the decreased upkeep. Tires are the biggest item in the expense of owning a car, and this 'Downing the Padded Price List,' is going to be a great boost for the automobile industry of the country over."

Mr. R. J. Murphy, manager of the Goodrich company's Atlanta branch, is naturally very much pleased that his company has adopted this policy of "Downing the Padded Price List," and he is also very much pleased that it has met with the extraordinary warm reception by automobile and tire dealers of the country over that it has met. He stated yesterday that the motive of the Goodrich company in doing this is simply to place the business of tire selling on a more firm and steady basis, and to do away with price raising in order that they might then be "cut." "The Goodrich people realize," said Mr. Murphy, "that if the 'padded' price list is done away with the cost of tires to the consumer will be reduced at least 15 per cent, and that will naturally create a larger and more general demand for automobiles, all of which creates a still larger market for tires."

Not only are the automobile and tire dealers interested in the new policy of the Goodrich company, as announced in its recent advertising, but the gas and oil people are interested, too. In conversation with Mr. G. C. James, of the Auto Oil and Gasoline company, yesterday afternoon, he stated that the oil and gas people have really as much cause to feel delighted as any one else.

"The policy just adopted by the Goodrich company," he said, "means more cars will be sold, all of which means more gas and oil will be needed to carry the extra cars." It means a great thing to the dealer, the owner, and the country in general, was the consensus of opinion as expressed by the three gentlemen quoted above.

## TAKES JURISDICTION ON FAILURE TO FURNISH CARS

WASHINGTON, Feb. 20.—The interstate commerce commission held today in a divided opinion that it and not the courts have original jurisdiction in cases where there is an alleged failure by a railroad to furnish cars to the extent requested by a shipper. The Illinois Central had denied the commission's jurisdiction in a case involving two coal companies.

The question held that a carrier must do more than provide itself with sufficient equipment for the slack period of coal production and must explain an excuse failure to furnish cars.

## REPEAL OF OLD TAX ON WHEAT FLOUR FAVORED

WASHINGTON, Feb. 20.—Repeal of the old Spanish war tax on mixed corn and wheat flour is being advocated in congress as one means of increasing the breadstuff supply and checking increasing prices.

The ways and means committee Monday will consider Representative Vallmer's bill for that purpose. A similar bill has been introduced in the senate. Some experts predict it will reduce the cost of four \$1 a barrel and increase the supply 10 per cent.

Diamond Squegee Tread Tires rolled a wonderful score in 1914—nothing like it in the whole history of tire records—

"This I consider a remarkable record and one that I have never seen equalled by any other make of tire. The Diamond Tires and particularly the Squegee Tread are without question, the most satisfactory tire in my opinion that have ever been placed on the market."

Seven selected Keith features make up the bill of Vaudeville that will come to the Forsyth this week. The headline feature will be Henrietta Deserris, the famous graduate of the Academy of Sculpture, Paris, and her company of fifteen professional models, who will pose in a series of reproductions of famous works of art. It will be a greatly interesting view of some of the wonderful statues that have been recently destroyed by dogs of war. Alexander and Scott, the minstrel duo who have already won favor in Atlanta, will present their famous act, "The Old Plantation Days," at the Atlanta-Forsyth. Since last seen in Atlanta they have been from one coast to the other as headline features. A good deal of interest will be in the engagement of Bertie Creston and company, presenters of the legitimate and her success in vaudeville has been thoroughly established. Billie Burke, the vaudeville producer, presents a one act comedy written by her, "The Old Plantation Days," which will be introduced. Lela, O'Neil and Melville, a vaudeville trio, in songs and dances and comedy. About twenty and thirty appeared at the Forsyth and scored one of the biggest hits ever recorded to a vaudeville act in Atlanta, known as "The Old Plant," they do all sorts of comedy stunts. Starting with a George Washington birthday holiday matinee Monday afternoon, the Baldwin-Melville company presents "Old Plantation Days," at the Atlanta all this week. Regular matinees will be given Tuesday, Thursday and Saturday, those of Tuesday and Thursday being at 3 o'clock in order to accommodate school children. "Old Plantation Days" is a picture of the south before the war and is the story of Little Eva. Mr. Baldwin has bitten it from another play. He has taken it from the south on many occasions, and in New Orleans played it six weeks because of the hit it made. All the features which have been expanded from the Baldwin edition and in the place has been substituted features which make it play very attractive and entertaining. this purpose lots of the best singers and dancers in Georgia will be assembled for each performance, and everything will be done to make the production a regular before the war. Fine back and wing dancing will be indulged and contests put on which will bring out all the local talent among the negroes.

George Arles will be seen for the first time in his production of Louis N. Parker's comedy, "Diogenes," at the Atlanta theater on March 4, 5 and 6. It is doubtful if Mr. Parker would ever have written his now famous comedy had not the only actor here available whose art, technique and personality fitted it titular role. Mr. Arles' performance is said to be a many-sided, graphic, polished and engrossing impression of the celebrated English premier.

The production is elaborate scenically and the costumes of the period—the early seventeenth-century pictorial charm to the performance.

Mr. Arles' company included such well-known players as Emma Laucelle, Florence Arles, Margaret Dale, Lilla Campbell, Lella Begon, Vincent Remy, Charles Harbord, Henry Carver, St. Clair Bayfield and others.

The only fault local theatergoers have to find with Miss Billie Burke is that she doesn't come to town often enough. Miss Burke made her first tour through the south in 1914, when she was John Drew's leading woman in "My Wife's

She didn't come again until 1912, when she was a star herself in "The Runaway." And now she is to be seen at the Atlanta theater, March 5, 6 and 7.

Her play this time will be "Jerry," an American comedy by Catherine Chisholm. Chisholm that is said to be the best vehicle the popular young actress has had since she became a star.

George Evans, the little minstrel favorite whom nearly every one knows as "Hokey Boy," and who has for the past six years headed his own company of black-face comedians, will offer his new production of minstrelsy at the Atlanta, for three days, and a matinee opening March 11.

Nowadays we simply ask at any drug store for "Wyneth's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because it can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—(Adv.)

Circle Merchants

P. G. Stanley, of the Lamar & Rankin Drug company, insists that he can exceed the record of J. M. Frix of the same company, for getting goods out to customers in the shortest time after the order has been given. A few weeks ago the Frix line carried a story to the effect that Mr. Frix took orders up to noon at Marietta and had the goods delivered next morning by suburban express at 7 o'clock when the merchants were opening their doors for business. But Mr. Stanley says that he takes orders from his merchant friends at Social Circle at 10 o'clock on one day and the goods are delivered next morning by freight at 7 o'clock. Mr. Stanley's dealing it out that though Mr. Frix has the edge of the express, he nevertheless can beat him by freight.

Place at Council Lodge  
Room

Editor of Firing Line—A joint committee from Council No. 56, and Fulton Council 596 are now working out the details of the memorial services the council will hold in their council chamber Sunday, April 4.

This service will be a joint service of both councils and promises to be the best service ever held by the order in Atlanta. These services carried out as are prescribed by the order are very beautiful indeed.

The committee promises that every detail will be perfected and that out memorial service will serve as inspiration to our members and the families of our departed brothers and our friends. All these are very cordially invited. The following are the committee:

Committee from Council No. 56: C. K. Ayer, H. M. Ashe and C. D. Montgomery. From Fulton, No. 596: D. A. Horne, Conductor Hopkins and Jack McDonald.

## GOOD WEATHER IMPROVED TRADE, SAYS LITTLE

Not Much Spring Plowing Yet,  
Ground Has Been Too  
Wet

"Business this week has shown an improvement over that of the previous week," said J. R. Little, of Dougherty-Little-Retelwies company. "This I attribute largely to the fact that good weather has prevailed throughout our territory and has been a decided stimulus to trade. I hear from our travelers and from the customers who have visited us that not much spring plowing was done last week, but that the good weather of the past two weeks because the ground was so thoroughly wet that it has not yet dried out enough for general farm operations. I believe, however, that the weather during good this week a world of spring plowing will be done."

Says Whole Course of Trade  
Would Be Helped by Pur-  
chases Now

C. J. Williamson, of Risher-Williamson-Wyatt company, returned recently from an extended sales trip and reports business as showing a decided upward tendency. "The improvement in business is noticeable," said Mr. Williamson, "but it is marked to me it would be more marked and conditions would more nearly return to normal conditions if the retail merchants would more generally get in new goods. In fact, it seems that the people of the towns are waiting for the retail merchant to get in their new stocks and as soon as they do, why then business will become active with them. But the merchant who expects to do business with old stock this season will certainly be disappointed. In this way the general trade is waiting in a great measure upon the retail merchants to take hold by getting in new goods and showing the forward outlook for the future."

## LEWIS ON WAR PATH FOR ANY GLOOMY GINK

Sees Only Prosperity Ahead. Says Sunshine Has Helped Trade Greatly

"Who said business was bad?" commented E. P. Lewis of the McClure-Ten Cent company. "The Atlanta jobbers would like to make this guy's acquaintance. Since old Sol began smiling on us, business has increased 50 per cent along all lines. We think the bad weather and the persistent kickers responsible for the greater part of the slump in business anyway."

"Every day finds us shipping merchandise to merchants from three to four hundred miles away. These are all merchants we have never met, but who have enough faith in Atlanta jobbers and the lines they handle to allow us to select a small stock of five and ten cent goods for them. We have received a number of letters saying they were

well pleased with the selection, and hoped to do a big business with us this year. "With the sun shining, spring near at hand and factories turning full time, we can only see a prosperous year ahead for the south. Let everybody that will join the busy throng, and those who are not willing to do this, can at least go back all down and keep still."

## A Real Campaign of Merchant Education

The campaign for Atlanta-made products is an educational campaign in the best sense.

The idea used to prevail that the mind is a jug-like affair. "You pour facts into this receptacle. The more facts you pour, the better educated you are educated."

This is the used-to-be notion, But we know better now.

Education isn't a pouring-in process. It is a drawing out.

The pedagogues will tell you so. It's the real meaning of the word education.

Your real educator endeavors to draw out and develop something that is already in the mind of the student.

We manufacturers are desperately interested in educating our Atlanta neighbors into a whole-hearted interest in ATLANTA-MADE products.

To do this thing, we must "lead out" or "draw out" something that is already in their minds.

One something is their PRIDE IN ATLANTA. Another is their SELF INTEREST.

Every loyal Atlanta merchant is proud of his town. He is interested in whatever makes for her welfare.

Again, every shrewd merchant is concerned with whatever is for his own interest.

Atlanta merchants are a wide-awake lot of men.

They are obliged to know that whatever builds up the town increases their own opportunities for business growth.

Nothing builds up a community so solidly and substantially as successful local industries.

Then if a merchant gives local manufacturers the go-by in buying his stocks, he is in reality injuring himself.

If you Atlanta merchants would join with us Atlanta manufacturers in a determined effort to turn Atlanta's loyalty into an actual demand for ATLANTA-MADE goods, you would be doing a great thing for Atlanta--and

A tremendous thing for YOUR OWN SELVES!

You know this, Merchants.

Why not join us in showing the people, the Consumers, the actual value of pulling together on this thing?

Tell them about it. Be known as a HOME-PRODUCTS champion.

We will help all in our power. We will do all we can to create the demand.

You work on it by stocking our goods and being ready to demonstrate the proposition.

The GET-TOGETHER is the thing that will help.

What we need is teamwork; Merchant and Manufacturer co-operating in a campaign of education that will bring us dividends.

We want your orders.
